The Supposed Sandy Hook Deaths – *Searched in Social Security Master File.*

The originating website uses a purchased copy of the Social Security Death Master File, updated through 1 January 2014, which is public information. You are invited to search all of these records for the putative 'victims' of the Sandy Hook massacre. The children should all be 6 to 7 years old ("born" 2005-2006), and should have "died" in 2012. The adult "victims" appear in the appendix.

(Each entry is followed by a 6-7digit serial entry number, which demonstrates the continuity of the alphabetical listing – in other words, that they are presented here unaltered.)

Conclusion – ALL of the identities of the "children victims" of the supposed Sandy Hook massacre, are purely fictitious identities, **with no record of either birth or death**. As to the adult "victims", the only one with an identity possibly verifiable from the intact SSD Master File, is Victoria G. Soto. The other identities may or may not have been assumed by real people at some time; but the identities themselves are nevertheless fictitious. Secondary copies of the Master File, or perhaps earlier versions, appear to have been altered or "corrected", to include the fake identities. Such *altered* copies appear to be in use by popular genaeology search websites, though inconsistently.
